**Looking for:** Business Partners in Software Development and/or IT Outsourcing.

### Business Nature

#### Product or Services:

Our position in the IT Industry is multi-faceted. With the experience gained developing our proprietary business software applications and our adoption of the world's leading hardware and networking products into our own operations, our team of experienced professionals are equipped to assist your business with information technologies requirements including:

- Contract Software Development
- Internet Data Center Services
- Project Staffing and Outsourcing
- Consulting and System Integration
- Our business solutions: Giftware, 2Me, AOCS, etc.

Company Core Competencies: Aware can help streamline work flow processes, leverage the latest hardware capabilities, provide consultancy and software development services.
